**Github:** https://github.com/LennonVinicius

Software Developer with experience in Python, process automation, REST APIs, and applications powered by Large Language Models (LLMs). Experience in academic and freelance projects involving Flutter development, intelligent automation, and technical leadership. Familiar with Git, Docker, Linux, Scrum, SQL and NoSQL databases.

## Professional Experience

- **Python / Flutter Freelance Developer (2025 – Present)**
  - Developed cross-platform mobile applications using Flutter.
  - Integrated applications with REST APIs.
  - Built responsive and user-friendly interfaces.
- **Python Developer (February 2026 – July 2026 )**
  - Developed AI-powered solutions using Large Language Models (LLMs).
  - Built web scraping solutions for automated data collection.
  - Designed and implemented intelligent chatbots.
  - Led a technical team of 8 members.
  - Served as a teaching assistant in an Artificial Intelligence academic project for a class of over 30 students at the University of São Paulo (FEA-USP), supporting the implementation of AI-based solutions.
  - Conducted field research on the social impact of Artificial Intelligence.

## Academic Projects

- Team Leader-Information Totem for People with Disabilities
  - Developed an accessibility-focused information kiosk using HMTL, CSS and Ruby.
- Technical Team Leader — Beverage Filling Cell Simulator
  - Industrial Automation Capstone Project

## Personal Projects

- AI-Powered Aircraft Decision Support Platform
  - Python, Flask, FastAPI, Prompt Engineering
  - React
  - PostgreSQL
  - Machine Learning Training
- Startup Nevupi
  - Python, FastAPI, Prompt Engineering
  - React, TypeScript
  - PostgreSQL
  - Docker, AWS
  - CyberSecurity

## Education

**Higher Diploma in Systems Analysis and Development** 2026 – Present

São Paulo State College of Technology (FATEC-SP)

**Technical Degree in Industrial Automation** February 2019 – January 2022

Federal Institute of São Paulo (IFSP)

## Technical Skills

- Programming Languages:
  - Python
  - C#
  - C
  - HTML e CSS
- Frameworks:
  - React
  - Flask
  - Flutter
- Methodologies:
  - Object-Oriented Programming (OOP)
  - REST API Development
  - Scrum
- Databases:
  - PostgreSQL
  - MongoDB
  - DBeaver
- Tools:
  - Github
  - Git
  - Docker
  - Linux
  - Jira

## Languages

- Portuguese (Native)
- English (B1/B2 – Intermediate)
- Spanish (A2 – Basic)

## Courses

- C# Programming — Udemy
- SQL & Databases — Udemy
- Power BI – Udemy
- IT Essentials 7 — Cisco Networking Academy (Computer Architecture & Organization)
